

## Purchasing Is In The Air: We Can Help With New Service Offerings

**1.) Pre-Purchase Design Services:** We can help you and your clients understand the possibilities of their potential purchase even before they actually buy or close on the residence.

**2.) Pre-Purchase Review Services:** Once your client has a home under contract, we can facilitate a review of the major systems of the house to help the homebuyer understand better what they are purchasing, if it meets current codes and if it is of similar quality to other homes in the area.

**3.) Structural Engineering Services:** We are once again offering structural engineering services to clients, contractors and other Architects.

## Other Happenings at TKGA

### Website: Two Is Better Than One

Check out our updated websites at [tkga.net](http://tkga.net) for more information on what is going on at TKGA this spring. In addition to our high-resolution flash website, we have now added a second html website for mobile device users, so now you can see what we are up to out in the world as easily as at your desk.

Also check out the projects we have been working on over this long winter and what we have coming up for the summer of 2011 construction season. We are now seeking more great projects for the remainder of 2011 and 2012.

### Staff Updates: Where is Ted?

For all of those who missed Ted at the end of ski season on Aspen Mountain, he now has a newly reconstructed knee and is on the mend. Hopefully he will be back to 100% for the 2011-12 season. (Which at the moment looks like it may just be a continuation of the 2010-11 ski season. Unfortunate for those of us who really look forward to that brief warm event we call summer that occurs between ski seasons.)

Happy Spring,

Michael J. Bucchini AIA  
Theodore K Guy AIA, PE
